State of California – The Resources Agency DEPARTMENT OF PARKS AND RECREATION

California State Parks' Central Valley Vision

Please let us know what you think!

Public Comments

California State Parks is interested in hearing from residents and organizations about the needs, interests and potential partnership opportunities existing within California's Central Valley. The State Parks' *Central Valley Vision* is a 20-year road map to help guide the Department in focusing on areas or facilities in the Valley that the public suggests for possible developments, expansion, interpretation and/or acquisition.
