

Don't Let an Oil Pipeline Operate in Gaviota State Park without Environmental Review

September 23, 2025

On May 9, 2025, the California Department of Parks and Recreation granted a California Environmental Quality Act exemption to Sable Offshore Corp., allowing it to work on a section of its failed pipeline through Gaviota State Park — the same pipeline that in 2015 spilled hundreds of thousands of gallons of crude oil into the ocean, polluting California beaches and killing marine mammals, birds, and other wildlife.

The California Department of Parks and Recreation has a duty to protect coastal ecosystems and to require the highest level of regulatory oversight on all potentially risky and harmful projects. Our state parks should be safe havens for people and wildlife — not host sites for aging, failed oil infrastructure operated by an untested company that has already rebuffed multiple agency concerns about its plan.

Sable Offshore Corp. has a pattern of not heeding notices of violations and cease-and-desist orders. It has already been fined a record \$18 million — the maximum allowed — by the California Coastal Commission for damage caused by unpermitted work on the pipeline in the coastal zone. Sable should be held to the highest regulatory standards — not exempted from them.

We, the 3,007 undersigned, urge you to prioritize people and wildlife over the interests of an out-of-state polluter. Please hold this dangerous oil pipeline project to the highest standards *and* require a full environmental impact review before considering whether to approve the easement across Gaviota State Park that Sable needs to restart this failed pipeline.
